

AFRICAN VACCINE MANUFACTURING INITIATIVE

## Annual General Meeting

Cape Town, South Africa

**30 November 2016**

**Day 1**

**Stakeholder Consultation**

# AVMI Overview

---

## Progress and Achievements

### AVMI AGM

Newlands, Southern Sun Hotel, Cape Town, 30<sup>th</sup> November 2016

# An African Initiative

Task team members  
from several African  
countries

Democratic Republic of Congo  
Egypt  
Nigeria  
Republic of Congo, Brazzaville  
Senegal  
South Africa  
Uganda

# Mission

---

To promote the establishment of sustainable human vaccine manufacturing capacity in Africa

# Strategic Objectives

---

## High level Advocacy

**Mobilise the African continent through high level advocacy, to manufacture preventive and therapeutic vaccines and/or other biological products against diseases of public health importance.**

## Facilitate partnerships

**To promote partnerships between African manufacturers of vaccines and biologicals and other interested stakeholders who have a vision of Africa producing its own vaccines**

# Strategic Objectives

---

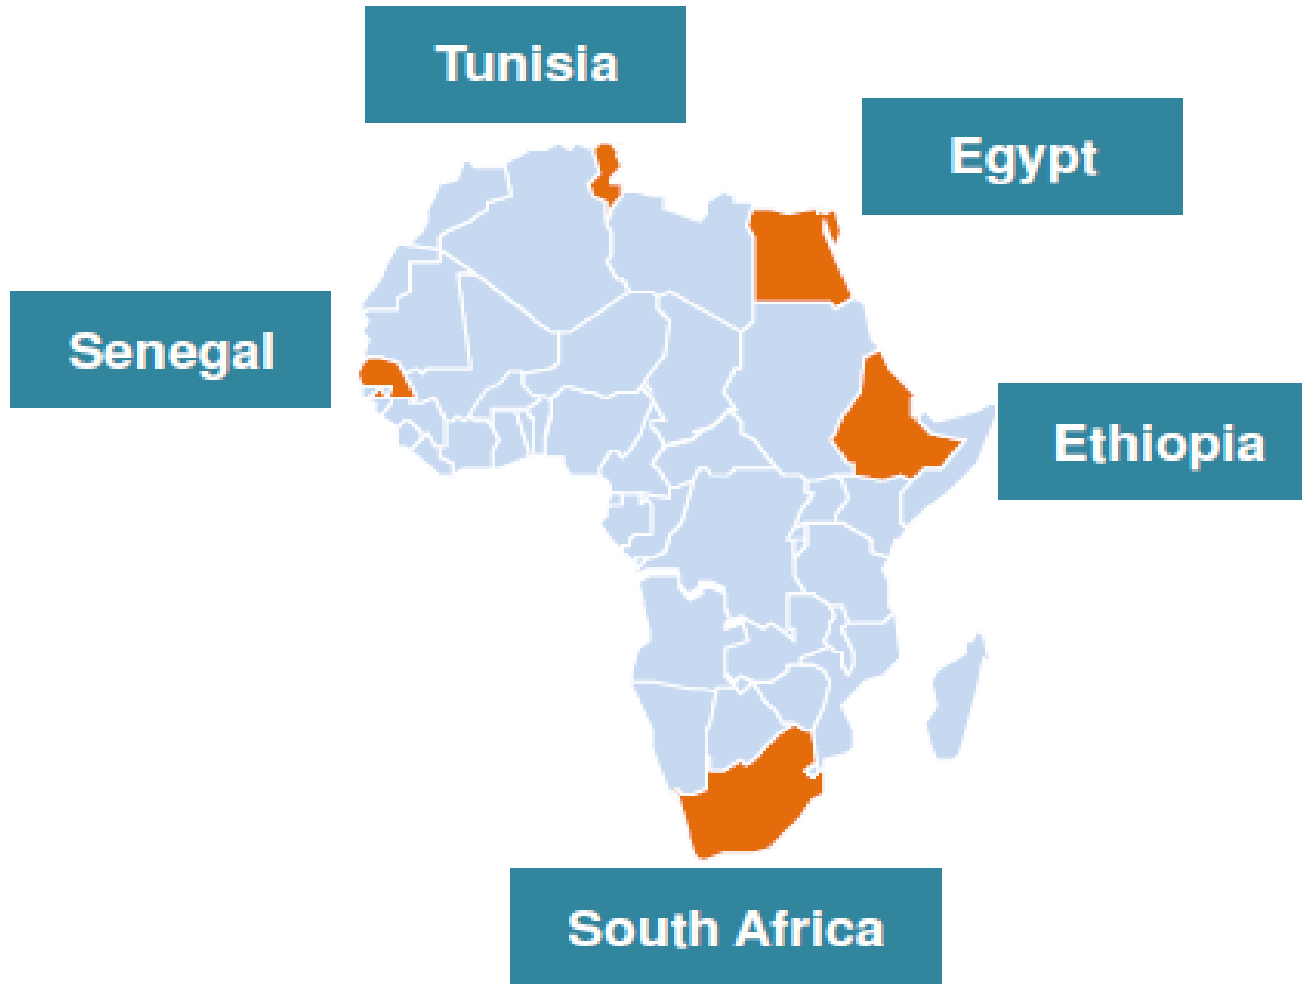

## Resource Mobilization

**To attract and secure skills and financial resources for establishing vaccine manufacturing capacity in Africa**

## Skills / Capacity Development

**To promote adequate scientific and technical capacity building of Africa's vaccine manufacturers in all aspects of production and distribution of vaccines and/or other biological products**

## Background Vision

### African Vaccine Manufacturing Initiative (AVMI)

In September 2010 during the International Vaccine Technology Workshop (IVTW) in India, a group of interested Africans launched the Africa Vaccine Manufacturers Initiative (AVMI) .

Looking beyond the provision of vaccines in emergency situations the AVMI intends to coordinate efforts of African vaccine manufacturers and other interested parties, who have a vision to see Africa produce its own vaccines [Read more...](#)
