Voting of Board Members

Voting process

- We will use the online platform - **Microsoft Forms online**.
- Each member will vote for a **max of 6 candidates** (the form will not allow more than 6)
- The first 6 candidates with the **highest number** of votes will **occupy positions in the board**.
- In the event of a tie amongst the candidates to fill the last remaining vacancy in the board, a runoff election between those candidates will be done amongst those candidates (e.g. where two or more candidates have equal amount of votes to fill the position of the 6th board member, those candidates with equal votes will participate in a run off election).
- Board members can be voted in **absentia** as long as they have consented.
- As per the MOI **the board will elect the chair** from amongst themselves.

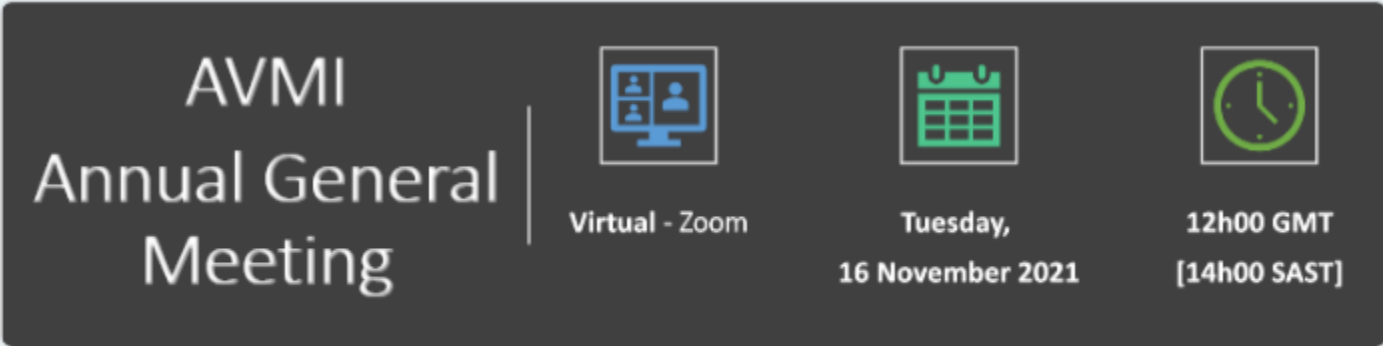

Executive Director

Appointment of Executive Director

- The position of the Executive Director (ED) is an operational one that is held by an individual that becomes an ex officio Board member.
- The ED position is a board ratified position that rests on the full discretion of the board within the limits and interest of the organisation.
- Therefore, unless the ED ceases to be a Director in one or more ways articulated in Clause 28 of the MOI such a position is not vacant for the purpose of appointment (nomination and voting).
