# INSTITUT PASTEUR OF MOROCCO (IPM)

---

- ❑ **Pasteur Institute of Morocco** is a public institute assimilated to an industrial pharmaceutical establishment.
  
- ❑ **It has 3 missions defined by the Moroccan Law :**
  - Research and public health activities ;
  - Education ;
  - Production and importation of Sera , vaccines and other biological products for human use.
  
- ❑ Currently, our pharmaceutical activities are limited to importation, storage and distribution of vaccines, sera and biological products

# REMINDER OF BACKGROUND

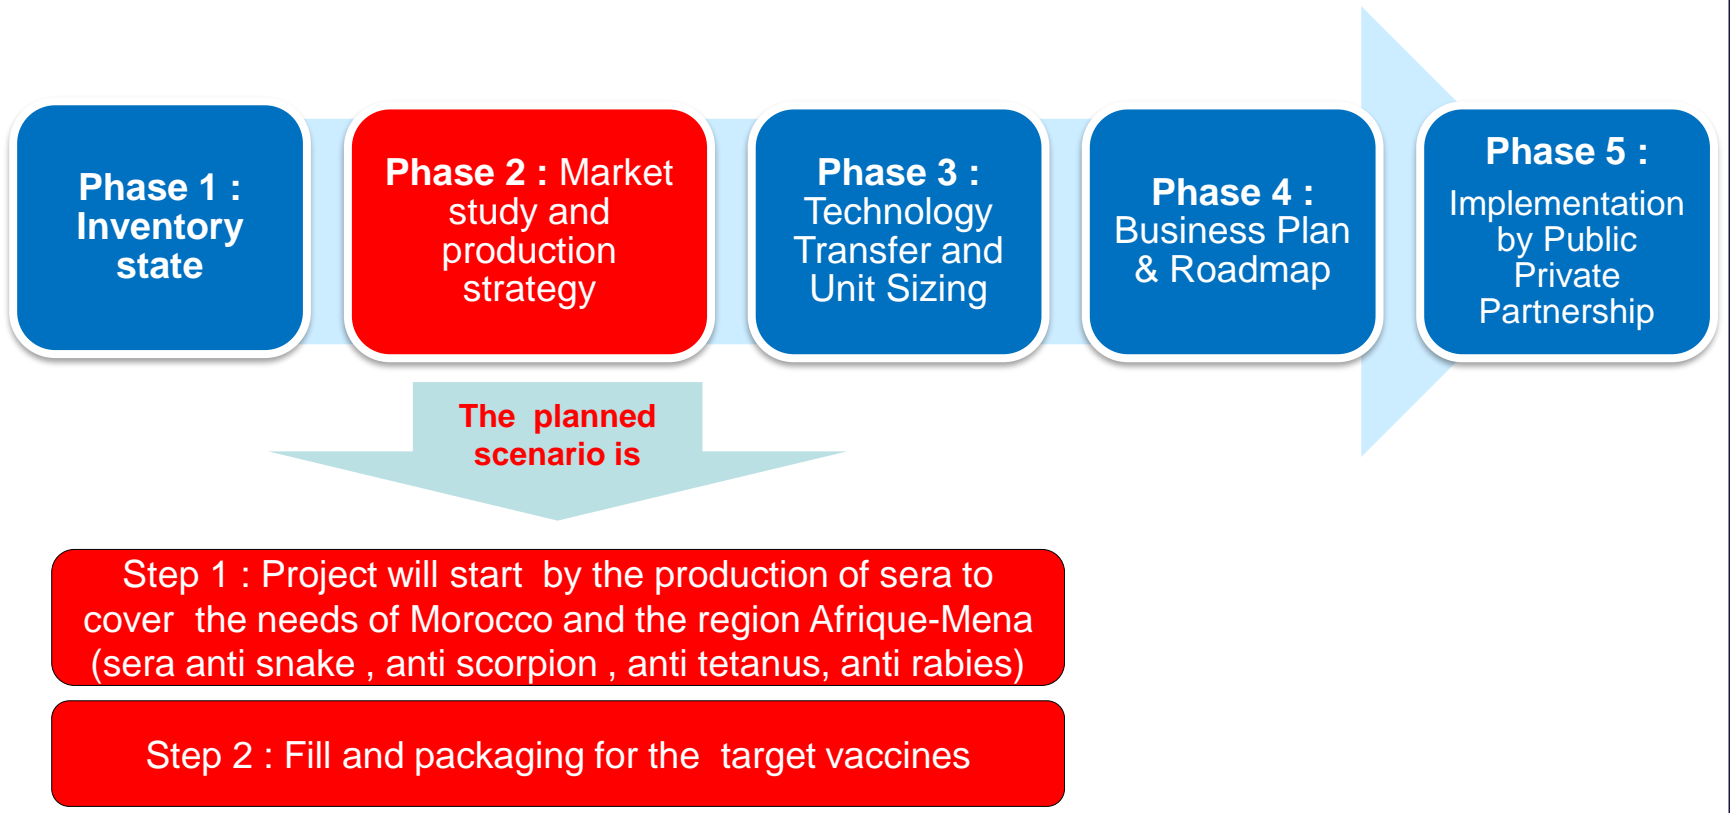

---

## □ Supply of vaccines and sera in Morocco :

- All Moroccan needs of vaccines & sera are imported ;
- Vaccines of National Immunisation Program :
  - ✓ Include 11 vaccines: HB, BCG, DTC, Polio, Hib, MR, Rota & PCV;
  - ✓ These vaccines are provided free to the population ;
  - ✓ Vaccines of NIP are supplied directly by the ministry of health through UNICEF, or by tenders for Rotavirus& PCV (GSK) ;
- IPM acts as a pharmaceutical company for other biological products:
  - ✓ Vaccines : Flu, Yellow fever, Rabies, Typhi, Meningococcal ....;
  - ✓ Biological products : Tuberculine PPD, Immun BCG , BCG vaccine ;
  - ✓ Sera : Tetanus, Rabies , venoms.
- Other companies of private sector: Sanofi Pasteur, GSK, Pfizer....

# MANUFACTURING PROJECT

- ❑ The last year in Addis Ababa, the Director of IPM presented our Project of sera and vaccine production;
- ❑ A Feasibility study has been started since 4 months, it will be done in 5 Phases :

# STRENGTHS OF INSTITUTE PASTEUR OF MOROCCO

---

## □ Strengths Of IPM :

- Moroccan authorities support the project (Ministry of Health, Ministry of Industry& Economy and Ministry of Finance) ;
- The South –South policy adopted by our government;
- Many agreements have been signed between our government and the different Africans ministry of health;
- IPM has an experience in sera production (we produced some sera and vaccines until 2001);
- IPM has a good marketing and network distribution capacities.

# STRENGTHS & EXPECTATIONS OF IPM

---

## □ Expectations Of IPM :

- Deepen the market study of sera ;
- Support for technology transfer;
- Progress in the project of prequalification of sera;
- Support of WHO to our national regulatory authorities for their prequalification also.
