

ATLANTIC LIFESCIENCES LTD

**PRESENTATION OF
OPPORTUNITIES FOR
INVESTMENT AND
PARTNERSHIPS ON
VACCINES AND
BIOPHARMACEUTICALS.**

COMPANY PROFILE

Who we are, & what we do

- Atlantic was established in 2017 as a limited liability company at Ningo-Prampram in Ghana
- Specializes in Sterile Pharmaceutical manufacturing
- Focused on increasing the range of essential medicines produced locally in Ghana so as to improve access, create jobs and to minimize importation of these products into the country.
- Current portfolio includes **Large Volume Parenterals (intravenous infusions), Eye/Ear/Nasal drops and Inhalational anaesthetic solutions.**
- The company also intends to add to its portfolio, **Small Volume Parenterals** and biological products such as **immunoglobulins** and **vaccines**

What are we offering?

- **Training**
- The company is open to engagements that seek to utilize its premises and facilities for practical training purposes as a means of contributing to building a strong vaccine workforce for Africa.

What are we looking for?
