

# EuBiologics Overview

June 2023

# EuBiologics\_Who We Are

EuBiologics is a publicly traded biopharmaceutical company based in South Korea focusing on vaccine development and manufacturing. It has two manufacturing sites in Chuncheon South Korea with a total capacity of up to 500M doses per annum.

## Plant

[C-Plant]

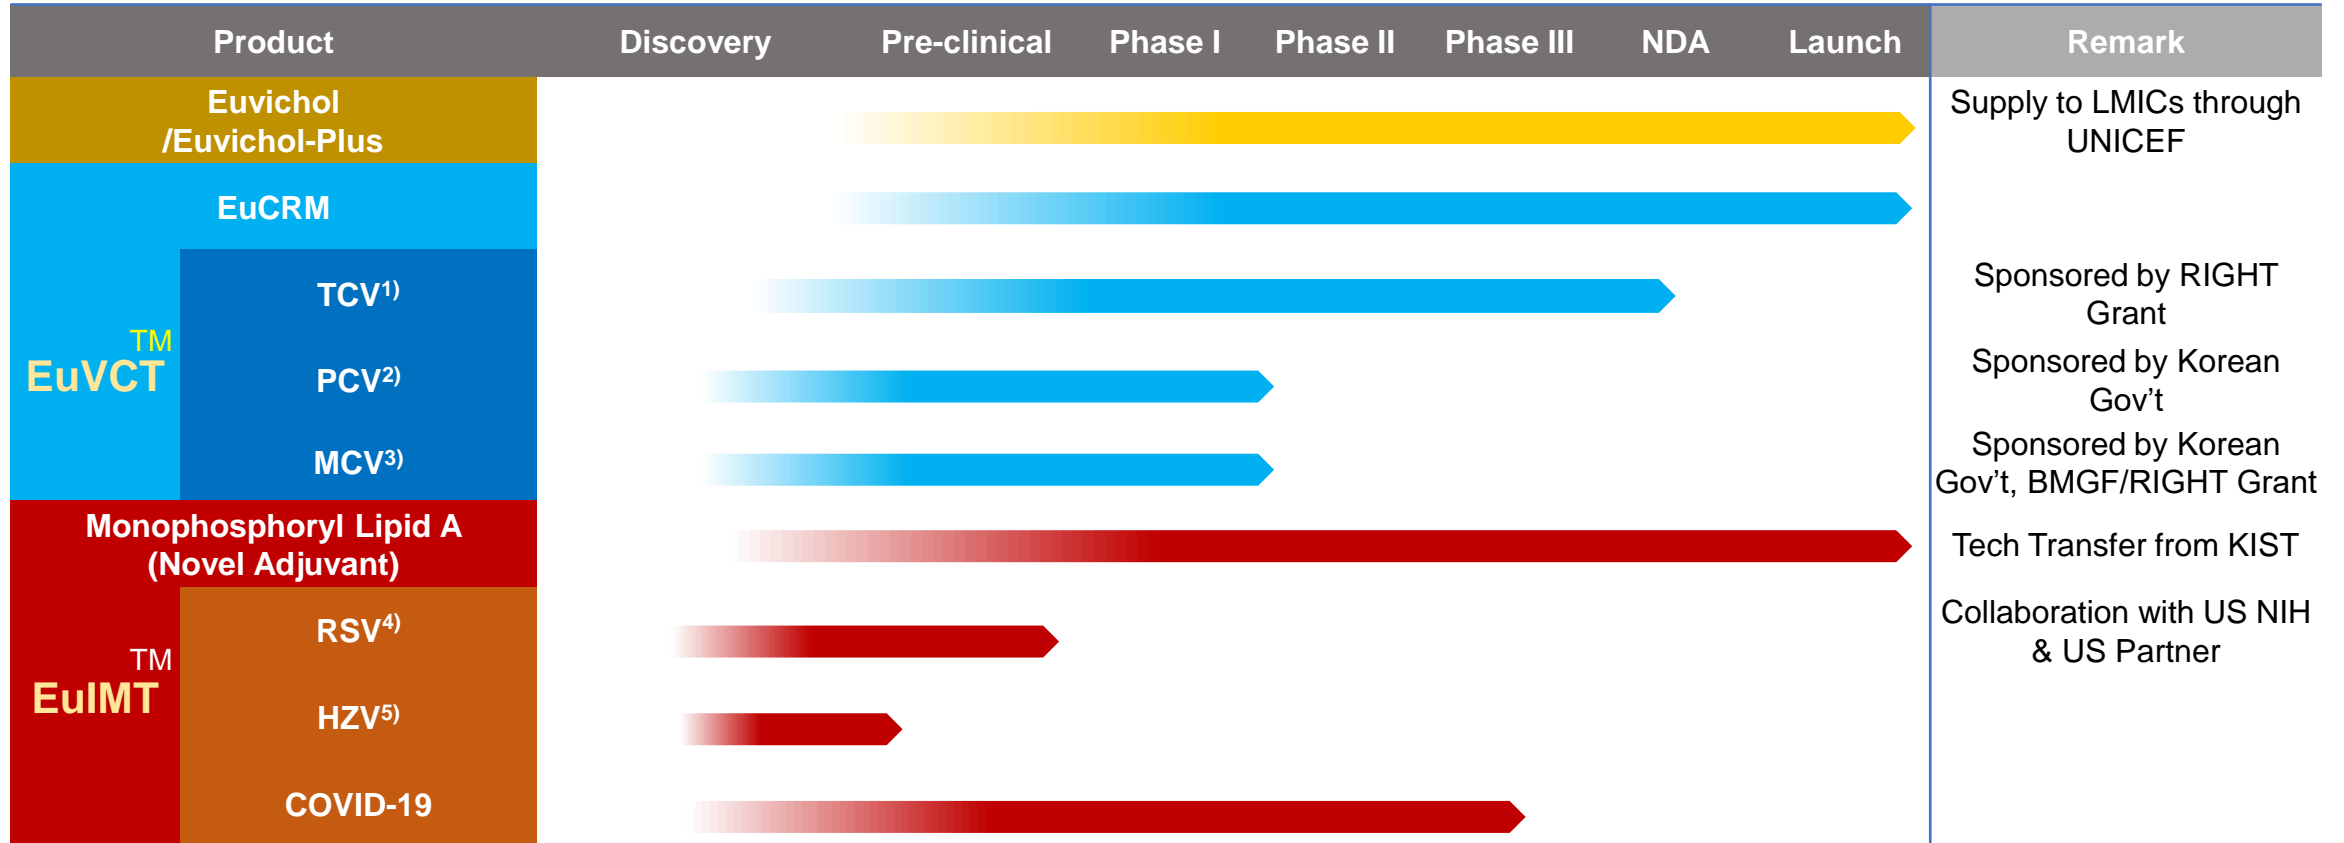

[V-Plant, R&D Center]

### [Facility and Capacity]

- C Plant : Oral Cholera Vaccine-DS & DP (33M doses)  
COVID-19 Vaccine-DS (200M doses/y, 1,000L\*2 lines of Animal cell culture line)
- V Plant : Bacterial conjugation production line- DS(Total 200M doses) → rCRM197, Typhoid, Meningococcal & Pneumococcal vaccines
  - : Oral Cholera Vaccine-DS & DP (33M & 50M doses/y) expansion ongoing funded by BMGF
  - : CMO for APIs ; Suite#4, 5 (50/100/200/500/1,000-L Lines)

# EuBiologics\_What We Do

EuBiologics is the largest supplier of oral cholera vaccine and has a pipeline of vaccines leveraging its platform technologies, **EuVCT<sup>TM</sup>(6)** and **EuIMT<sup>TM</sup>(7)**

1) TCV: Typhoid Conjugate Vaccine

2) PCV: Pneumococcal Conjugate Vaccine

3) MCV: Multivalent Meningococcal Conjugate Vaccines

4) RSV: Respiratory Syncytial Virus

5) HZV: Herpes Zoster Virus

6) EuVCT: EuBiologics Vaccine Conjugation Technology

7) EuIMT: EuBiologics Immuno Modulation Technology

## What We Are Offering

- **Vaccine Manufacturing Technology Transfer**
  - Oral Cholera Vaccine, Typhoid/Multivalent Meningococcal/Pneumococcal Conjugate Vaccines
- **Bulk Supply for Local Fill/Finish & Drug Product Process Technology Transfer**
- **Consultancy for Design & Construction of Vaccine Manufacturing Facility**
- **Process & GMP Training**

## What We Are Looking For

- **Business Partners to provide;**
  - Technology transfer
  - Bulk Supply
  - Consulting
  - Training
