

Global event on enhancing the sustainability of investment for vaccine manufacturing in Africa.
27-29 June 2023

United Nations Conference Centre, UNECA, Addis Ababa, Ethiopia

Presentation of opportunities for investment and partnerships on vaccines and biopharmaceuticals.

A. Who we are, & what we do

Please provide information on the company, its current portfolio, focus, specialization, and capacity.

Merck KGaA Darmstadt Germany is a vibrant science and technology company, we believe in science as a force for good. We make a positive difference in millions of people's lives. We empower the scientific community. Our tools, services, and digital platform make research simpler, more exact, and help to deliver breakthroughs more quickly. We provide progressive treatment solutions that help improve access to health thanks to the accuracy of our tests and the reliability of our medicine. As a company, we are at the forefront of digital living. Our science sits inside technologies that change the way we access, store, process, and display information. Our innovative technology drives human progress and opens new possibilities to transform life on Earth as we know it. We are also involved in numerous established and greenfield projects in Africa pursuing complex molecule manufacturing (vaccines, mAbs, SVP's, and LVP's, etc.) in collaboration with external stakeholders/partners (Unizima, Rommelag, GIZ, USP, USTDA, US Embassy, etc.).

Please note that MilliporeSigma is the company name in the USA and Merck KGaA is the company name in the rest of the world

B. What are we offering

Please provide information on what your company can provide to other partners, such as opportunities for partnership, technology license, training, feasibility study etc?

Merck KGaA is a technology provider. We bring best in class products and expertise for building a biological manufacturing facility.

C. What are we looking for

Please provide information on what the company seeks from other partners (businesses, finance, and technology providers)?

Merck KGaA seeks partners that can support with capacity building, finance, and project management.
